Buckley - Today 9/25/75 (Barbara Walters) on book:
Hunt came to see him 12/72 & told him all he
knew about WG and he had to set on it
(How do you?) His answer was to disqualify him-
self from commenting in his magazine
This included the Ellsberg break-in. (How did
he know these crimes would come out?) No
new such crimes in respect by the same
people. "I do know that no crime was
committed by virtue of my having kept -
silent." - Subject my Ellsberg + Russo and
their families and the country to all of
this no crime? Not misprision simply
because a grand confessed to him in distress
not see his crimes, but because of the
emotional stress of personal tragedy
